

NO BEET SUGAR SEED CAN BE IMPORTED FROM GERMANY

Salt Lake, Oct. 5.—Unless American beet sugar manufacturers devise some method by which they can obtain sugar beet seed from abroad, less than 50 per cent of the factories in the United States may be in operation in 1916, and in 1917 the industry may be practically at a standstill.

This was a conclusion reached yesterday at a meeting of the United States Sugar Manufacturers' association, which opened at 2:30 o'clock at the Hotel Utah with thirty-one members in attendance.

The sessions during the day were devoted entirely to the discussion of this problem, which was made more acute by the receipt of a telegram through the state department setting forth the following conditions under which Germany will permit shipments of beet seed to the United States:

Stringent Conditions.
"That the department of agriculture do not permit the seed to be re-exported to Canada or Italy and that the department will supervise its distribution."

"That previous to the time the seed is shipped Germany shall have received 3,500,000 marks' worth of food products from the United States in payment."

"That British safe passage shall be secured."

As outlined at the session of the association yesterday, there seems to be only one thing that can relieve the situation—immediate termination of the European war. There is only about half enough seed in the United States to seed the usual acreage for the next crop. Sugar beet growers of the United States will be wholly dependent upon domestic seed, which is less than 10 per cent of the entire amount needed.

Germany Declines.

Germany has declined to export seed to the United States unless food or cotton is received in return. This seems an utter impossibility in view of Great Britain's blockade of German ports. Last year the imperial government accepted cash for this seed sent to this country, but this year it has taken the stand that food or cotton only, and not money, will be accepted.

Before the meeting is adjourned it is probable some definite action will be taken by the naming of a committee to consider the problem and take it up with the United States government in an effort to induce Germany to accept money in payment for the seed.

May Seek U. S. Aid.

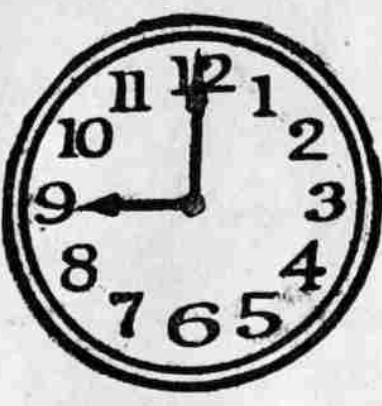

According to Secretary Truman G. Palmer of Chicago, seed grown in the United States is of a much better grade than that produced abroad, but the high price of labor in this country makes its production unprofitable. He says, he has the distinction of being one of three states in the United States which grows any of its own seed.

In view of present conditions, Secretary Palmer declared that if sugar goes on the free list in May, as the schedule calls for, the beet sugar industry will be practically ruined, as the consumer can then buy foreign sugar for less than American concerns can manufacture it.

Today's session of the association will begin at 9 or 9:30 o'clock this morning and continue until noon. At 2:30 o'clock the visitors will be guests at an organ recital which will be held in the tabernacle. Another session will be held this afternoon and at 7:30 o'clock the members will attend an informal dinner at the Hotel Utah. The meeting will not be concluded until tomorrow.

GENERAL ELECTRIC PLANT TIED UP

Shenectady, N. Y., Oct. 5.—Virtually the entire plant of the General Electric company is tied up today as

Supplying Lumps of Comfort

Whenever you say "Aberdeen" to your coal dealer, he is pleased because he knows that "Aberdeen" will supply you with comfort in the form of the best quality coal.

A lump or so of "Aberdeen" soon takes the chill out of the house. It's surprising, too, how "Aberdeen" cuts down the coal bill. That's because a small fire of "Aberdeen" gives maximum heat and burns to a very light ash; there is no waste to "Aberdeen".

For economy's sake you should be satisfied with nothing but—

Aberdeen

REV. BRAINERD IS MODERATOR

The Congregationalists of the state gathered in their annual association meeting at Phillips Congregational church yesterday morning for a two days' session. The meeting is one out of the ordinary, in that all the addresses and papers are by visiting clergymen of the denomination who are in places of prominence east and west.

Pastors and delegates from most of the Utah churches were present during the day and it is anticipated that tomorrow a complete representation will be in attendance, save from the Vernal church.

At the morning session the Rev. Frank G. Brainerd was elected moderator pro tem, on account of the resignation of the Rev. Philip King, who recently left for an eastern parish.

The Rev. Frank L. Moore of Denver, the home mission superintendent for Colorado in Utah, presented an interesting resume of religious conditions in the two states and urged a progressive campaign for the Utah churches in the coming year.

At the afternoon meeting the Women's Mission union held its sessions and a number of interesting papers

were read. The president of the union, Mrs. John Whalley, was in charge of the program, and vocal numbers were rendered by Mrs. Atkinson and Mrs. Claude Shields.

The association sermon was preached at 4 o'clock by the Rev. W. G. Pufferfoot of Boston, who preached upon the conversion of Zacharias. The Sacrament of the Lord's Supper was celebrated at the close of the sermon, the Revs. Sam. H. Goodwin and Ludwig Thomsen administering.

In the evening an address of remarkable power and charm was delivered by the Rev. J. K. Brown of San Francisco, who for forty years was a missionary in Armenia. His topic was that of missionary work in the great Turkish empire. Dealing with its romance, its realism and its results, he thrilled the audience with his message.

Preceding the address, solos were rendered by R. G. Hammer of Ogden and Miss Nellie Hasbrouck of Salt Lake.

Luncheon and dinner were served in the church parlors by the ladies of the church.

This morning a business session for election of officers, the hearing of reports and transaction of essential business will precede addresses upon topics of interest during the afternoon and evening, when the Revs. J. K. Brown, Miles B. Fisher and W. G. Pufferfoot will be heard. The day is said to have been the most notable in its addresses ever experienced by the Utah association.

ELKS PREPARE FOR CHARITY SHOW

The local Elks lodge has started preliminary plans for the staging of its annual "charity entertainment," and dates for the event will soon be

announced. At a recent meeting a committee consisting of Dr. W. E. Whalen, chairman; Jay Glen, Dr. C. K. MacMurdy was appointed to take charge of the arrangements and they have already started active work.

This year the lodge is desirous of putting on a minstrel show with an "olio" program that will give its numerous talented members an opportunity to shine unhampered in the glare of a spotlight.

Book your seats early for Mrs. Leslie Carter at the Alhambra-Orpheum Thursday, Friday and Saturday.

CONVICT ESCAPES FROM THE CAMP

Frank Gonzales, serving an indeterminate sentence in the state prison for robbery, escaped from the convict camp two miles north of Layton, yesterday afternoon.

Declaring he was ill, Gonzales was allowed to quit work at 3 o'clock and return to camp with a guard, going to his bunk. When the evening meal was served it was discovered that he was gone.

A. C. Ure, deputy warden, and C. C. Smith, prison parole agent, left Salt Lake in an automobile, joining with Ed Janney, chief guard at the camp, and several volunteers, in search for the fugitive. The trail is to the north west, toward the canyon leading to Evanston, Wyo.

Gonzales is described as being 22 years of age, Mexican, 5 feet 4 1/4 inches tall, black hair, dark brown eyes and an irregular scar at the base of the right thumb. Another irregu-

lar scar appears on the back of the left calf. The usual reward of \$50 is offered for his capture.

Last time tonight, Clara Kimball Young in "Tribby," at the Isis.

BOY TRIES TO SELL
